WORKSHOP MODULES

FLEXIBLE STORAGE AND WORK SPACE SOLUTION

Designed specifically to provide working space and storage solutions for oil and gas workshop machinery and tools, Specialist Services RedGuard has a fleet of Workshop Modules available for deploying to project sites worldwide. All of our workshop units are certified for Zone 1 operation and supplied with a steel workbench complete with a vice. There is a specially designed storage rack and tool hanger, providing an efficient, well-organized and secure method of tool storage at a high level of quality.
