OFFSHORE ACCOMMODATION MODULES

FLEX42

FLEX 42

ACCOMMODATION MODULES

Our FLEX 42 Accommodation Module is designed to provide maximum comfort for up to 12 personnel, split between three bedrooms. Unique design features include en-suite wet units and exterior doors for each bedroom. The flexible design includes a removable bulkhead panel that allows for linking multiple modules together. The redundant HVAC and communication packages provide additional comfort for your crew. This A60 rated module comes fully compliant and certified to the latest regulatory requirements for portable accommodation modules.
